When her twenty-five-year marriage suddenly falls apart, journalist Florence Williams expects the loss to hurt. But when she starts feeling physically sick, losing weight and sleep, she sets out in pursuit of rational explanation. She travels to the frontiers of the science of \"social pain\" to learn why heartbreak hurts so much—and why so much of the conventional wisdom about it is wrong. Soon Williams finds herself on a surprising path that leads her from neurogenomic research laboratories to trying MDMA in a Portland therapist's living room, from divorce workshops to the mountains and rivers that restore her. She tests her blood for genetic markers of grief, undergoes electrical shocks while looking at pictures of her ex, and discovers that our immune cells listen to loneliness. Searching for insight as well as personal strategies to game her way back to health, she seeks out new relationships and ventures into the wilderness in search of an extraordinary antidote: awe. With warmth, daring, wit, and candor, Williams offers a gripping account of grief and healing. Heartbreak is a remarkable merging of science and self-discovery that will change the way we think about loneliness, health, and what it means to fall in and out of love.

Are you considering starting an Employee Stock Ownership Plan (ESOP) or converting your company to an ESOP? Or maybe making the big leap to a 100% employee-owned company? If you want your company to perform at its absolute peak and you want the people who make that happen (you included) to receive the ultimate financial return—that of an owner—Create Amazing is your practical field guide to creating an amazing company and leaving a great legacy. There are more than 10,000,000 employee owners in America today. The results of employees owning a piece of the pie has been proven throughout American history, even before ESOPs became IRS law in 1974. Employees with even a small capital interest in their firms' successes are more likely to stay, have greater loyalty and pride, are willing to work hard, and make more suggestions for improvement. Economic injustice caused by wealth disparity is quickly becoming the hottest debated topic in America especially in combination with the most regressive recession in America's history and the nation's hopeful new commitment to equalizing opportunities across all people. Employee ownership is not the only answer for economic justice but it can be a critical puzzle piece for tens of millions of Americans where the current inherent disadvantage of circumstance stands in their way. Create Amazing demonstrates how ownership can provide the ultimate competitive advantage to a growing company—and the nation. The vast majority of what's been published about employee ownership comes from academe—compelling research from Rutgers, the feds, and several national ESOP associations. Create Amazing puts ESOPs feet-on-the-ground, written by Greg Graves, a CEO who has walked the talk. Graves operated one of the most successful ESOPs in American history. Graves shares:

- The history of employee ownership in America and the principles of its purpose
- Why employee ownership is a viable solution fiscally and futuristically
- What an ESOP is, what it does, and what's happening in Washington, DC, to promote this model
- How ESOPs work, and how they're structured legally, fiduciarily, and financially
- A deep dive into the impact of ESOPs on America and on employee owners personally

If you're a business owner considering an ESOP start-up or transition to employee ownership, if you are a current employee owner who believes your firm can do more, or if you simply believe that our nation needs a shot of steroids to be both more productive and more just, this is the book that speaks from a real-world, executive-to-executive perspective about the process, the problems (and how to avoid them), and the deliverables. Create Amazing explores how employee ownership—done the right way—sparks an ownership mindset among employees and can be a catalytic force for economic prosperity and corporate endurance.

Scaling Up

Most startups don't fail because they can't build a product. Most startups fail because they can't get traction. Startup advice tends to be a lot of platitudes repackaged with new buzzwords, but Traction is something else entirely. As Gabriel Weinberg and Justin Mares learned from their own experiences, building a successful company is hard. For every startup that grows to the point where it can go public or be profitably acquired, hundreds of others sputter and die. Smart entrepreneurs know that the key to success isn't the originality of your offering, the brilliance of your team, or how much money you raise. It's how consistently you can grow and acquire new customers (or, for a free service, users). That's called traction, and it makes everything else easier—fund-raising, hiring, press, partnerships, acquisitions. Talk is cheap, but traction is hard evidence that you're on the right path. Traction will teach you the nineteen channels you can use to build a customer base, and how to pick the right ones for your business. It draws on inter-views with more than forty successful founders, including Jimmy Wales (Wikipedia), Alexis Ohanian (reddit), Paul English (Kayak), and Dharmesh Shah (HubSpot). You'll learn, for example, how to:

- Find and use offline ads and other channels your competitors probably aren't using
- Get targeted media coverage that will help you reach more customers
- Boost the effectiveness of your email marketing campaigns by automating staggered sets of prompts and updates
- Improve your search engine rankings and advertising through online tools and research

Weinberg and Mares know that there's no one-size-fits-all solution; every startup faces unique challenges and will benefit from a blend of these nineteen traction channels. They offer a three-step framework (called Bullseye) to figure out which ones will work best for your business. But no matter how you apply them, the lessons and examples in Traction will help you create and sustain the growth your business desperately needs.

The One Minute Manager Meets the Monkey

Nothing is more essential than knowing how to worship the God who created us. This book focuses readers on the essentials of God-honoring worship, combining biblical foundations with practical application in a way that works in the real world. The author, a pastor and noted songwriter, skillfully instructs pastors, musicians, and church leaders so that they can root their congregational worship in unchanging scriptural principles, not divisive cultural trends. Bob Kauflin covers a variety of topics such as the devastating effects of worshiping the wrong things, how to base our worship on God's self-revelation rather than our assumptions, the fuel of worship, the community of worship, and the ways that eternity's worship should affect our earthly worship. Appropriate for Christians from varied backgrounds and for various denominations, this book will bring a vital perspective to what readers think they understand about praising God.
