Werbe- und Konsumentenpsychologie

Wie funktioniert Werbung? Wie werden Kaufentscheidungen beeinflusst? Wie manipulierbar sind wir als Konsumentinnen und Konsumenten? Welche Methoden im Marketing funktionieren und warum? Das Buch „Werbe- und Konsumentenpsychologie“ gibt Antworten auf diese Fragen. Mit der fünften Auflage des seit Jahren erfolgreichen und prüfungsrelevanten Lehrbuchklassikers halten Sie die psychologischen Grundlagen des Neuromarketings und der Verhaltensökonomie in Ihren Händen. In diesem leicht verständlichen und gleichzeitig wissenschaftlich anspruchsvollen Buch erfahren Sie, welche Rolle diesen Prozessen tatsächlich zukommt. Diese Neuauflage wurde um eine Vielzahl aktueller

Suffer the Children

We all say that we care about children. We all know that millions of children around the world, including in the United States, are suffering physically, materially, and emotionally and are unable to reach their full potential. Moreover, their material deprivation and physical ills often prevent them from responding to the gospel. Most of us conclude that we cannot do anything significant to help the impoverished children living in our own backyards let alone those living in the slums of Nairobi or the hinterlands of Haiti. We can, however, do much to improve their lives materially and spiritually. Through praying, giving generously, sponsoring children, volunteering with aid organizations, living more simply, investing and shopping more prudently, and advocating more zealously in the political arena, we can make a difference. We can prod politicians, business executives, and church leaders to prioritize aiding destitute children. We can support one of the hundreds of organizations that are working effectively to help indigent children have better lives. Suffer the Children describes the plight of poor children and provides many practical ways we can participate in one of the most important crusades to improve our world.
