Seeing Serena

A riveting chronicle of trailblazing tennis champion and cultural icon Serena Williams's turbulent 2019 tour season and a revealing portrait of who she is, both on and off the court. Serena Williams is an undisputed global sports celebrity. Ranked #12 on ESPN's 2018 World Fame 100 list of popular athletes, thirty-seven-year-old Serena Williams is the only female in the top 20, and she's one of the highest paid athletes in the world. The face of women's tennis for the past two decades, Serena is now waging battles on multiple fronts--against age, injuries, and opponents almost twenty years her junior, all while juggling her responsibilities as a new mom. Seeing Serena is an in-depth chronicle of Serena Williams' return to tennis after giving birth to her daughter, and an insightful cultural analysis of the most consequential female athlete of her time. Author Gerald Marzorati shadows her through her 2019 season, from Melbourne and the Australian Open, to Roland-Garros and Wimbledon, and on to the US Open as she seeks her 24th Grand Slam singles title. He writes about her tennis and her forays into fashion, investing, and developing her personal brand on social media. Seeing Serena illuminates Williams's singular status as the greatest women's tennis player of all time and--in a moment when race and gender are the most talked-about topics in America and beyond--a pop icon like no other. Marzorati is on the scene, observing her matches, and talking to her, her coach, her competitors, and former greats who have witnessed her for years. He observes her, listens to her, studies her, explores her roles in society and history--sees Serena fully, in all the ways she has come to matter.

Who Was Roberto Clemente?

Growing up the youngest of seven children in Puerto Rico, Roberto Clemente had a talent for baseball. His incredible skill soon got him drafted into the big leagues where he spent 18 seasons playing right field for the Pittsburgh Pirates. Who Was Roberto Clemente? tells the story of this remarkable athlete: a twelve-time All-Star, World Series MVP, and the first Latin American inducted into the Baseball Hall of Fame.

Who Was Muhammad Ali?

Cassius Marcellus Clay, Jr. won the world heavyweight championship at the age of 22, the same year he joined the Nation of Islam and changed his name to Muhammad Ali. He would go on to become the first and only three-time (in succession) World Heavyweight Champion. Nicknamed “The Greatest,” Ali was as well known for his unique boxing style, consisting of the Ali Shuffle and the rope-a-dope, as he was for the catchphrase “float like a butterfly, sting like a bee.” He was an uncompromising athlete who brought beauty and grace to a very rough sport and became one of the world’s most famous cultural icons. Read Who Was Muhammad Ali? and discover “The Greatest.”

Who Was Maya Angelou?

Born in Missouri in 1928, Maya Angelou had a difficult childhood. Jim Crow laws segregated blacks and whites in the South. Her family life was unstable at times. But much like her poem, “Still I Rise,” Angelou was able to lift herself out of her situation and flourish. She moved to California and became the first black—and first female—streetcar operator before following her interest in dance. She became a professional performer in her twenties and toured the U.S. and Europe as an opera star and calypso dancer. But Angelou's writing became her defining talent. Her poems and books, including I Know Why the Caged Bird Sings, brought her international acclaim.

Who Was Kobe Bryant?

Told in a new Who HQ NOW format for trending topics, this Who Was? biography details NBA superstar Kobe Bryant's legendary career and the impact of his legacy on the sports world and beyond. Who Is Kamala Harris?

The inspiring story of Vice President Kamala Harris told in the new Who HQ NOW format for trending topics. On August 22, 2020, Kamala Harris, a senator from California, became the first African-American and South Asian-American woman to be selected as the vice presidential running mate on a major party's ticket. While her nomination was not unexpected, her rise to national prominence was one filled with unexpected turns and obstacles. After failing her first bar exam to become a lawyer, she tried again and passed. From there, she quickly rose through the legal ranks, serving as district attorney of San Francisco, then California's attorney general, and soon, senator. As a politician, Kamala Harris has been a vocal champion of progressive reforms and women's rights. This exciting story details the defining moments of what led to her nomination and all the monumental ones since that have shaped her career and the future of America.

On the Line

One of the biggest stars in tennis, Serena Williams has captured every major title. Her 2009 Australia Open championship earned her the #1 world ranking for the third time in her illustrious career - and marked only the latest exclamation point on a life well and purposefully lived. As a young girl, Serena began training with an adult-sized racquet that was almost as big as her. Rather than dropping the racquet, Serena saw it as a challenge to overcome-and she has confronted every obstacle on her path to success with the same unflagging spirit. From growing up in the tough, hardscrabble neighborhood of Compton, California, to being trained by her father on public tennis courts littered with broken glass and drug paraphernalia, to becoming the top women's player in the world, Serena has proven to be an inspiration to her legions of fans both young and old. Her accomplishments have not been without struggle: being derailed by injury, devastated by the tragic shooting of her older sister, and criticized for her unorthodox approach to tennis. Yet somehow, Serena always manages to prevail. Both on the court and off, she's applied the strength and determination that helped her to become a champion to successful pursuits in philanthropy, fashion, television and film. In this compelling and poignant memoir, Serena takes an empowering look at her extraordinary life and what is still to come.

Who Is Oprah Winfrey?

The story of how a young Southern girl who was raised on a pig farm became one of the most influential and inspiring people in the world. We all know Oprah Winfrey as a talk-show host, actress, producer, media mogul, and philanthropist, but the "Queen of Talk" wasn't always so fortunate. She suffered through a rough childhood and went on to use her personal struggles as motivation. Oprah's kindness, resilience, and determination are just some of the many reasons why her viewers--and people all around the world--love her. The richest African American person of the twentieth century, Oprah is often described as the most influential woman in the world.

Who Is Barack Obama?

As the world now knows, Barack Obama has made history as our first African-American president. With black-and-white illustrations throughout, this biography is perfect for primary graders looking for a longer, fuller life story than is found in the author's bestselling beginning reader *Barack Obama: United States President*.

Different Strokes

The days of tennis as a country club sport for the aristocracy have long passed, as have the pre-Open era days when black players faced long odds just to be invited to the four Grand Slam events. An entire generation of sports fans has grown up seeing Venus and Serena Williams as the gold standard in American professional tennis. Although the Williams sisters have done more than any other players to make tennis accessible to a diverse population, it's not as if the tennis revolution is over. When you watch tennis next, take a close look at the umpire, the person sitting in the high chair of authority at courtside. Look at the tournament referee and the tournament director, the officials who run the tournament. In those seats of power and influence, blacks are still woefully underrepresented. *Different Strokes* chronicles the rise of the Williams sisters, as well as other champions of color, closely examining how African Americans are collectively faring in tennis, on the court and off. Despite the success of the Williams sisters and the election of former pro player Katrina Adams as the U.S. Tennis Association's first black president, top black players still receive racist messages via social media and sometimes in public. The reality is that while significant progress has been made in the sport, much work remains before anything resembling equality is achieved. Watch a book trailer.

Who Was Charlie Chaplin?

Who was the real Charlie Chaplin? Kids will learn all about the comic genius who created "The Little Tramp"! Charlie Chaplin sang on a London stage for the first time at the age of five. Performing proved to be his salvation, providing a way out of a life of hardship and poverty. Success came early and made Chaplin one of the best loved people in the United States until the McCarthy witch hunts drove Chaplin from his adopted country. This is a moving portrait of a multi-talented man—actor, director, writer, even music composer—and the complicated times he lived in.

Who Was Jesse Owens?

At the 1936 Berlin Summer Olympics, track and field star Jesse Owens ran himself straight into international glory by winning four gold medals. But the life of Jesse Owens is much more than a sports story. Born in rural Alabama under the oppressive Jim Crow laws, Owens's family suffered many hardships. As a boy he worked several jobs like delivering groceries and working in a shoe repair shop to make ends meet. But Owens defied the odds to become a sensational student athlete, eventually running track for Ohio State. He was chosen to compete in the Summer Olympics in Nazi Germany where Adolf Hitler was promoting the idea of "Aryan superiority." Owens's winning streak at the games humiliated Hitler and crushed the myth of racial supremacy once and for all.

Who Was Galileo?

Like Michelangelo, Galileo is another Renaissance great known just by his first name--a name that is synonymous with scientific achievement. Born in Pisa, Italy, in the sixteenth century, Galileo contributed to the era's great rebirth of knowledge. He invented a telescope to observe the heavens. From there, not even the sky was the limit! He turned long-held notions about the universe topsy turvy with his support of a sun-centric solar system. Patricia Brennan Demuth offers a sympathetic portrait of a brilliant man who lived in a time when speaking scientific truth to those in power was still a dangerous proposition.

Without risking life or limb, readers can explore the wonders and beauty of the Amazon in this Where Is...? title. Human beings have inhabited the banks of the Amazon River since 13,000 BC and yet they make up just a small percentage of the \"population\" of this geographic wonderland. The Amazon River basin teems with life—animal and plant alike. It's a rainforest that is home to an estimated 390 billion individual trees, 2.5 million species of insects, and hundreds of amazing creatures and plants that can either cure diseases, or, like the poison dart frog, kill with a single touch. Where Is the Amazon? reveals the amazing scale of a single rainforest that we are still trying to understand today and that, in many ways, supports our existence on this planet.

Venus and Serena

Born into aristocracy, Churchill cut his teeth as a young army officer in British India, the Sudan, and the Second Boer War. He rose in the ranks to First Lord of the Admiralty and was a staunch opponent of the encroaching German Nazis. Churchill served as Prime Minister of the United Kingdom from 1940 to 1945 and again from 1951 to 1955. Widely regarded as one of the greatest wartime leaders of the 20th century, Churchill was also a historian, a writer, and an artist. He is the only British Prime Minister to have won the Nobel Prize in Literature, and was the first person to be made an honorary citizen of the United States.

Jill Price has the first diagnosed case of a memory condition called \"hyperthymestic syndrome\" -- the continuous, automatic, autobiographical recall of every day of her life since she was fourteen. Give her any date from that year on, and she can almost instantly tell you what day of the week it was, what she did on that day, and any major world event or cultural happening that took place, as long as she heard about it that day. Her memories are like scenes from home movies, constantly playing in her head, backward and forward, through the years; not only does she make no effort to call her memories to mind, she cannot stop them. The Woman Who Can't Forget is the beautifully written and moving story of Jill's quest to come to terms with her extraordinary memory, living with a condition that no one understood, including her, until the scientific team

who studied her finally charted the extraordinary terrain of her abilities. As we learn of Jill's struggles first to realize how unusual her memory is and then to contend, as she grows up, with the unique challenges of not being able to forget -- remembering both the good times and the bad, the joyous and the devastating, in such vivid and insistent detail -- the way her memory works is contrasted to a wealth of discoveries about the workings of normal human memory and normal human forgetting. Intriguing light is shed on the vital role of what's called \"motivated forgetting\"; as well as theories about childhood amnesia, the loss of memory for the first two to three years of our lives; the emotional content of memories; and the way in which autobiographical memories are normally crafted into an ever-evolving and empowering life story.

The Black Back-ups

\"Learn more about the renowned British scientist, professor, and author who spent his entire career trying to answer the question: \"Where did the universe come from?\" Stephen Hawking was born exactly three hundred years after the death of the scientist Galileo, so maybe it was written in the stars that he would become a famous scientist in his own right. Although he was diagnosed with a neurological disease at age 21, Stephen did not let the illness define his life. Known for his groundbreaking work in physics, and identified by his wheelchair and computerized voice system, Stephen continued his research until his death in 2018. He is best known for his black hole theories and his best-selling book A Brief History of Time. Stephen Hawking is an example of a person who had a great mind, but an even greater spirit\"--
